THE GREATEST DUEL ON RECORD .- An old Mississippian furnishes the following to the

Woodville (Miss.) Republican:

The famous duel in which forty or more gentlemen were engaged, in 1828, is still remembered in Natchez. Col. Jim B.wie, the famous fighter and inventor of the knife which bears his name, used to spend a great deal of his time in Natchez. He was challenged by a gentleman of Alexandria, La., whose friends to the number of twenty or more, accompanied him to Natchez to see fair play, knowing Bowie was a desperate man, and had his own friends about him .-All parties went upon the field. The combatants took their places in the centre, separatel from their friends in the rear, far enough not to endanger them with their halls .--Behold the battle array thus:-Twenty armed Louisianians fifty yards behind their champion and his seconds and surgeon, and opposite them, as far behind Bowie and his seconds and surgeon, twenty armed Mississippians. Behold the heights of Natchez the river rounded to, its decke black with passengers, watching with a deep interest peetfully, the scene. The plan of fight was to exchange shots twice with pistols, and to close with knives, Bowie being armed with his own terrible weapon. At the first fire both parties escaped. At the second the Louisianian was too quick and took advantage of Bowie, who waited the word. At this Bowie's second cried "foul play!" and shot the Louisianian dead. The second of the latter instantly killed the slayer of his principal. Bowie drove his knife into this man. The surgeons now crossed blades, while, with loud battle cries, came on the two parties of a moment the whole number were engaged in a fearless conflict. Dirks, pistols and knives were used with fatal effect, until one party | variety of drove the other from the field. I do not

THE OLD OAKEN BUCKET .- The following reminiscence of Samuel Woodworth, possesses sufficient interest, we think, to warrant us in presenting it to our readers. It is a Herds Grass Seed. &c. portion of a private letter recently received | GUANO, BONE DUST, from one whose authority in the matter cannot be questioned. In reference to the period of the production of the "Old Oaken Bucket," the writer says:-"It was written in the spring or summer of 1817. The family were living at the time in Duane street .-The poet came home to dinner one very warm day, having walked from his office, somewhere near the foot of wall street. They have never been BOILED OR CALCINED .-They are taken as nature has made them, crushed with powerful Machinery, and subjected to a process, by which, while all the virtue of the Bone is retained, a Fertilizer is procured, furnishing in a CONCENTRATED and SOLUBLE FORM the two indispensable ingredients for the growth of Plants and enriching the soil, viz: PHOSPHORIC ACID AND AM-MONIA. These two ingredients, by the use of "BAUGH'S RAW BONE SUPER-PHOS-PHATE," are given to the soil in all their original strength and purity.
